

EU-Funded Research

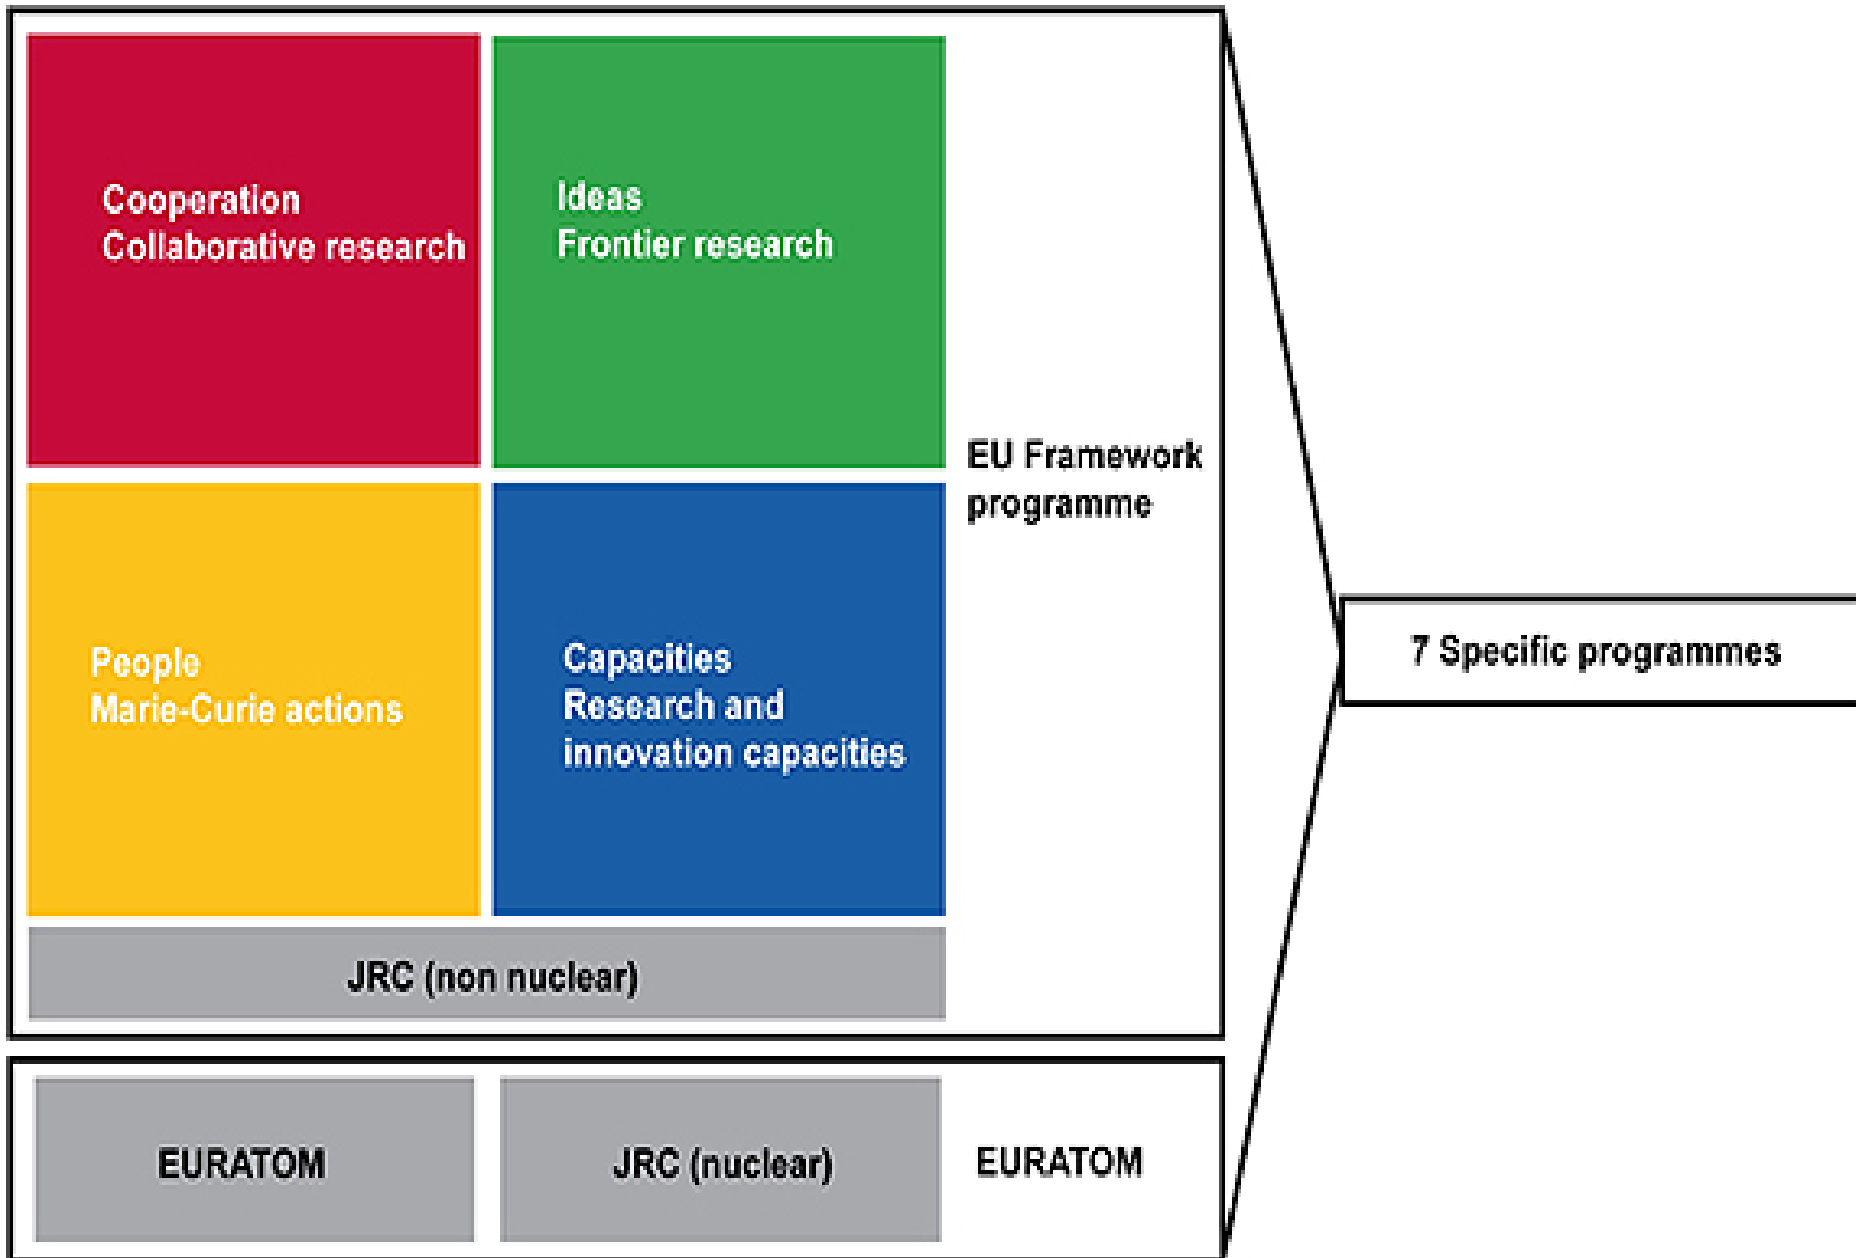

Dr Amr Radwan
RDIN Focal Point
Egypt National Contact Point for Health Office
Egyptian National S&T Information Network
(ENSTINET)

The EU's Seventh Framework Programme (FP7, 2007-2013)

- **FP7** is short for:
Seventh Framework Programme for Research and Technological Development
- **European Union's** main instrument for **funding research** in Europe between 2007 and 2013
- FP7 supports research in **selected priority areas**
- FP7 represents a **41% budget increase from FP6** at 2004 prices

Structure of the 7th EU Framework programme: Specific programmes

COOPERATION	Health
	Food, Agriculture, and Biotechnology
	Information and Communication Technologies
	Nanosciences, Nanotechnologies, Materials and new Production Technologies
	Energy
	Environment (including Climate Change)
	Transport (including Aeronautics)
	Socio-economic sciences and Humanities
	Space
	Security
	General Activities
IDEAS (ERC)	Starting Independent Researcher Grants Advanced Investigator Grants
PEOPLE (Marie Curie Actions)	Initial Training of Researchers Lifelong Learning and Career Development Industry - Academia Partnerships / Pathways The International Dimension Specific Actions
CAPACITIES	Research Infrastructures Research for the Benefit of SMEs Regions of Knowledge Research Potential Science in Society Coherent Development of Research Policies Activities of International Cooperation
EURATOM	Fusion Energy Nuclear Fission and Radiation Protection

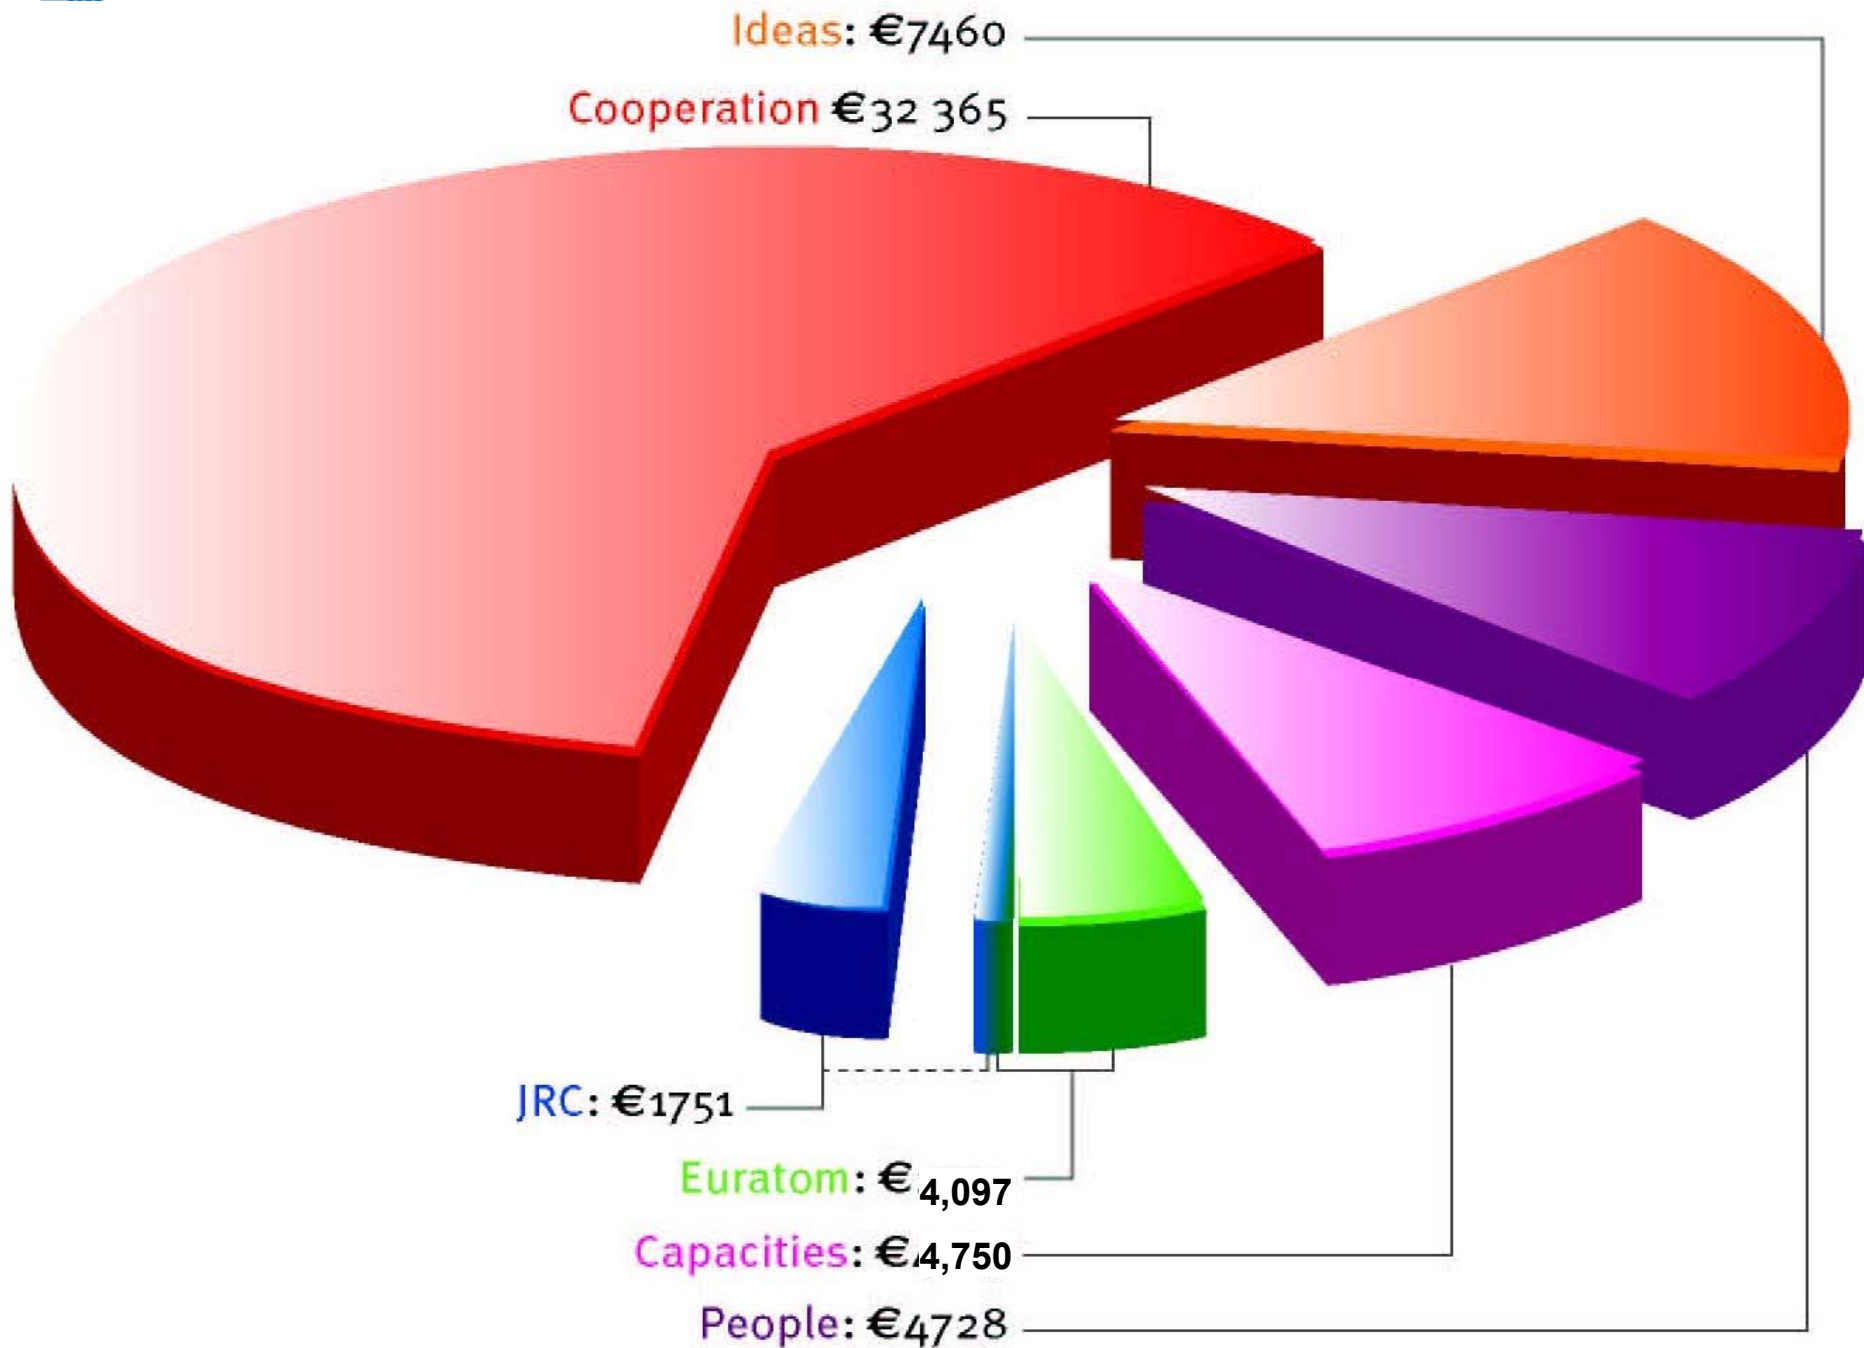

JOINT RESEARCH CENTRE (JRC) Direct Actions

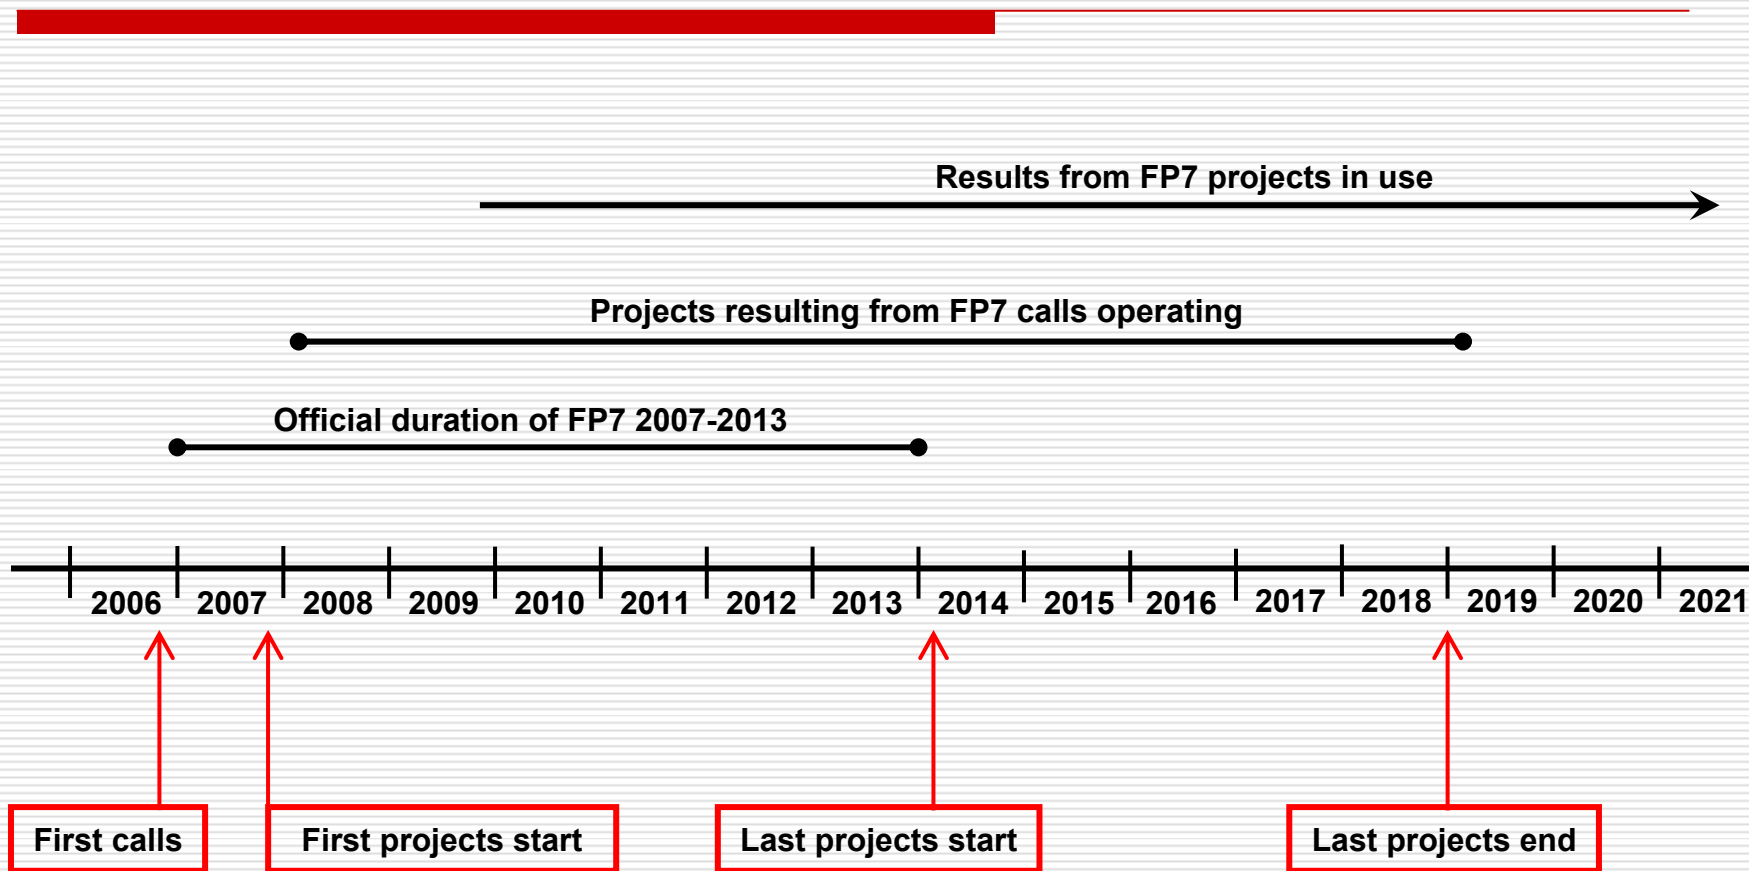

Want a scientific career in Europe?

People
Budget: €4.7 billion

FP7 – Indicative breakdown (€ million)

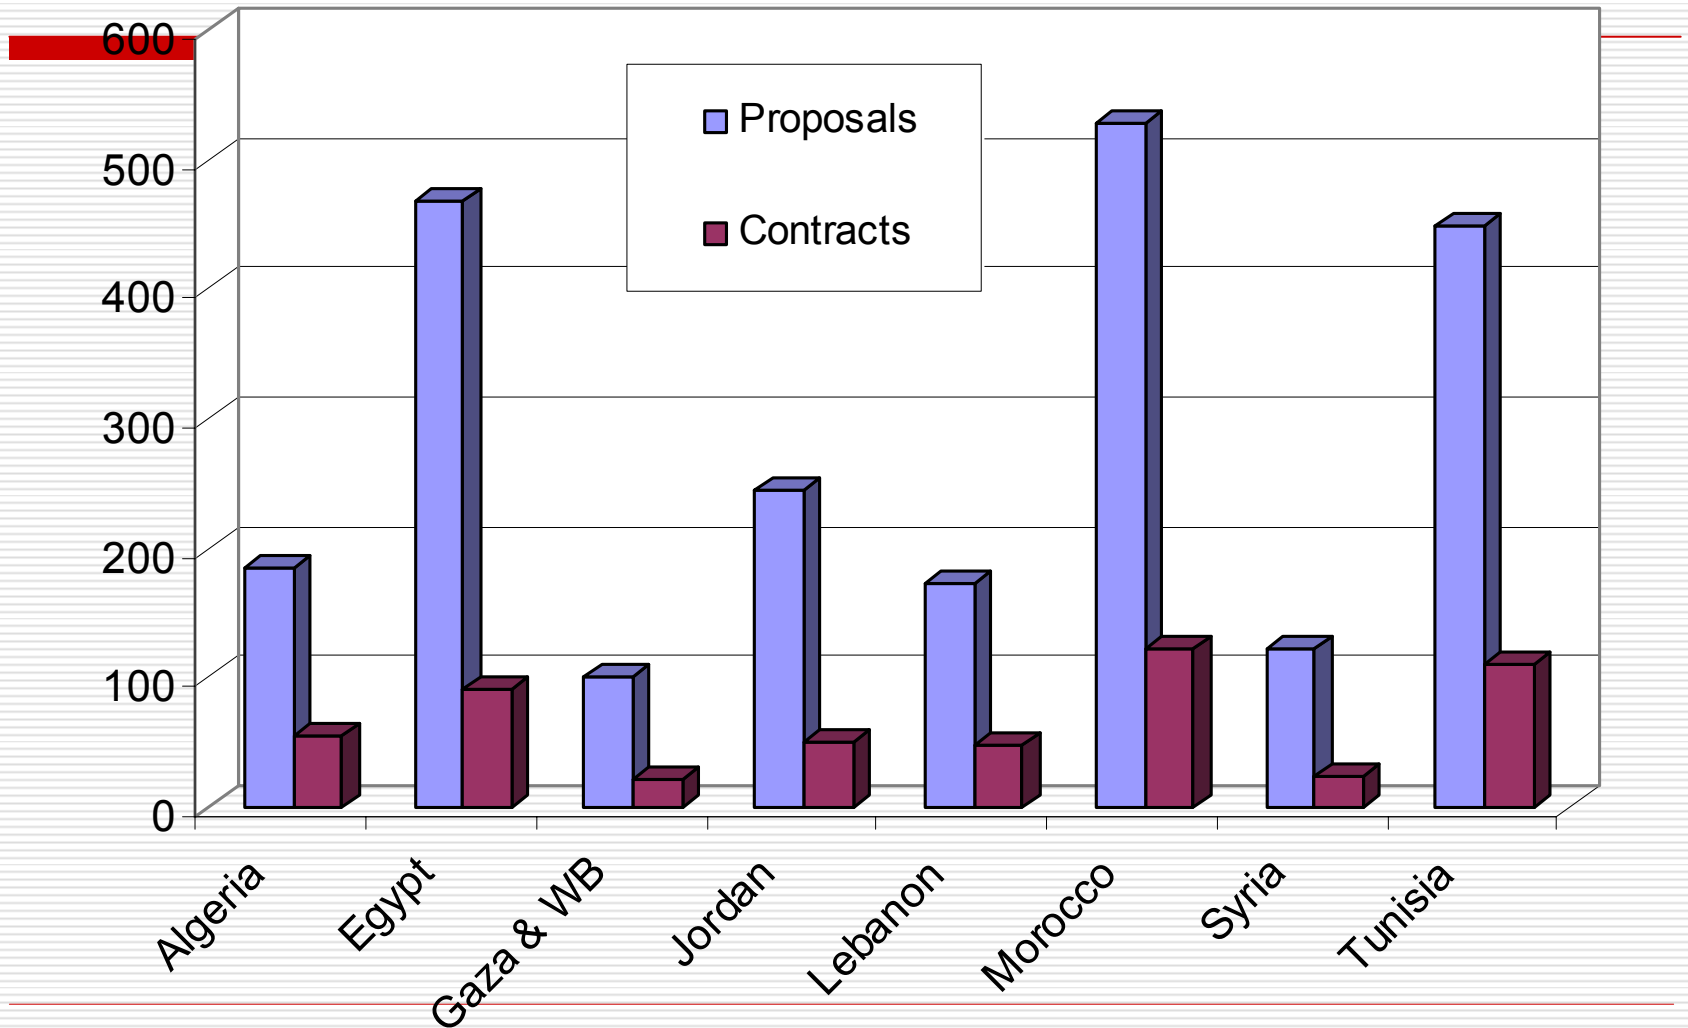

Timeframe for FP7 projects

FP6 (2002-2006)

Participation of MPC – breakdown by countries

FP7 First Call	Project Acronym	Funding Scheme	Partner	Partner Legal Name
FP7-ENERGY-2007-1-RTD	MED-CSD	CSA-SA	NREA	New and Renewable Energy Authority
FP7-ENV-2007-1	SustainergyNet	CSA-CA	CU-IARS	Cairo University/ Institute of African Research and Studies

To participate . . .

Calls for proposals

- Calls are published *official invitations* for researchers to submit project proposals for a specific area of the Framework Programme by a specific date, usually about three months after the call. Calls specify very clearly needed conditions as funding scheme.....

Who Can participate

Universities,

→ Research centres

→ Multinational corporations,

→ SMEs (small to medium-sized enterprises),

→ Public administrations,

→ NGOs (Non-Governmental Organizations)

→ Natural Individuals, from anywhere in the world

When TO Apply

Indicative dates

-
- In 2007 , there will be two calls for this theme, covering different topics.
 - ① Call one with a deadline of
2007-05-02
 - ② Call two with a deadline of
2007-09-11
 - In 2008 ,
 - ③ Call Three with a deadline of
2008-02-26

New Calls published 30 Jul. 2009

- **Health** **19 November 2009 & 29 October 2009**
- **KBBE** **14 January 2010**
- **Environment** **05 January 2010**
- **Africa Call** **14 January 2010**

EU Policy ... and Egypt Participation

1. First countries/ Member states
2. Second countries/ Associated countries
3. Third countries

A. Industrialized countries

USA, Canada, Japan, Singapore, South Korea, Australia, New Zealand

B. ICPC

Mediterranean partner countries

Western Balkans

Eastern European and Central Asian

Emerging economies (Russia, china, India, Brazil, South Africa)

African-Caribbean , Asian Countries, Latin America ,

European Neighborhood partner countries

Key Documents

- [Call Fiche](#)
- [Work program](#)
- [Guide for Applicants](#) (specific to funding schemes)
- Organization Profile
- [Partner Search Form](#)

1. Health

Biotechnology, generic tools and technologies for human health

Translating research for human health

Optimising the delivery of healthcare to European citizens

2. Food, Agriculture and Fisheries and Biotechnologies

2.1.
Sustainable production and management of biological resources
from land, forest and aquatic environments

2.2.
“Fork to farm”: Food, health and well being

2.3.
Life sciences and biotechnology for sustainable
non-food products and processes

Food, agriculture, Fisheries and biotechnology research: Objectives

- Build a European Knowledge-Based Bio-Economy (KBBE)
- Respond to social and economic challenges:
 - High quality food and sustainable food production
 - Food-related disorders (cardiovascular, obesity ...)
 - Infectious animal diseases and zoonoses
 - Sustainable agriculture/fishery and climate change
 - Clean biomaterials from renewable bio-resources
- Involve all stakeholders (incl. industry) in research
- Respond quickly to emerging research needs
- What's New
- 18 SICA \
- Plus 14 International Cooperation

6. Environment (inc. climate change)

Climate change, pollution and risks

Sustainable Management of Resources

Environmental Technologies

Earth observation and assessment tools

□ Activities and sub-activities

Climate change, pollution and risks

- Pressures on environment and climate
- Environment and health
- Natural hazards

Sustainable Management of Resources

- Conservation and sustainable management of natural and man-made resources and biodiversity
- **Management of marine environments**

Environmental Technologies

- Environmental technologies for observation, simulation, prevention, mitigation, adaptation, remediation and restoration of the natural and man-made environment
- Protection, conservation and enhancement of cultural heritage including human habitat
- Technology assessment, verification and testing

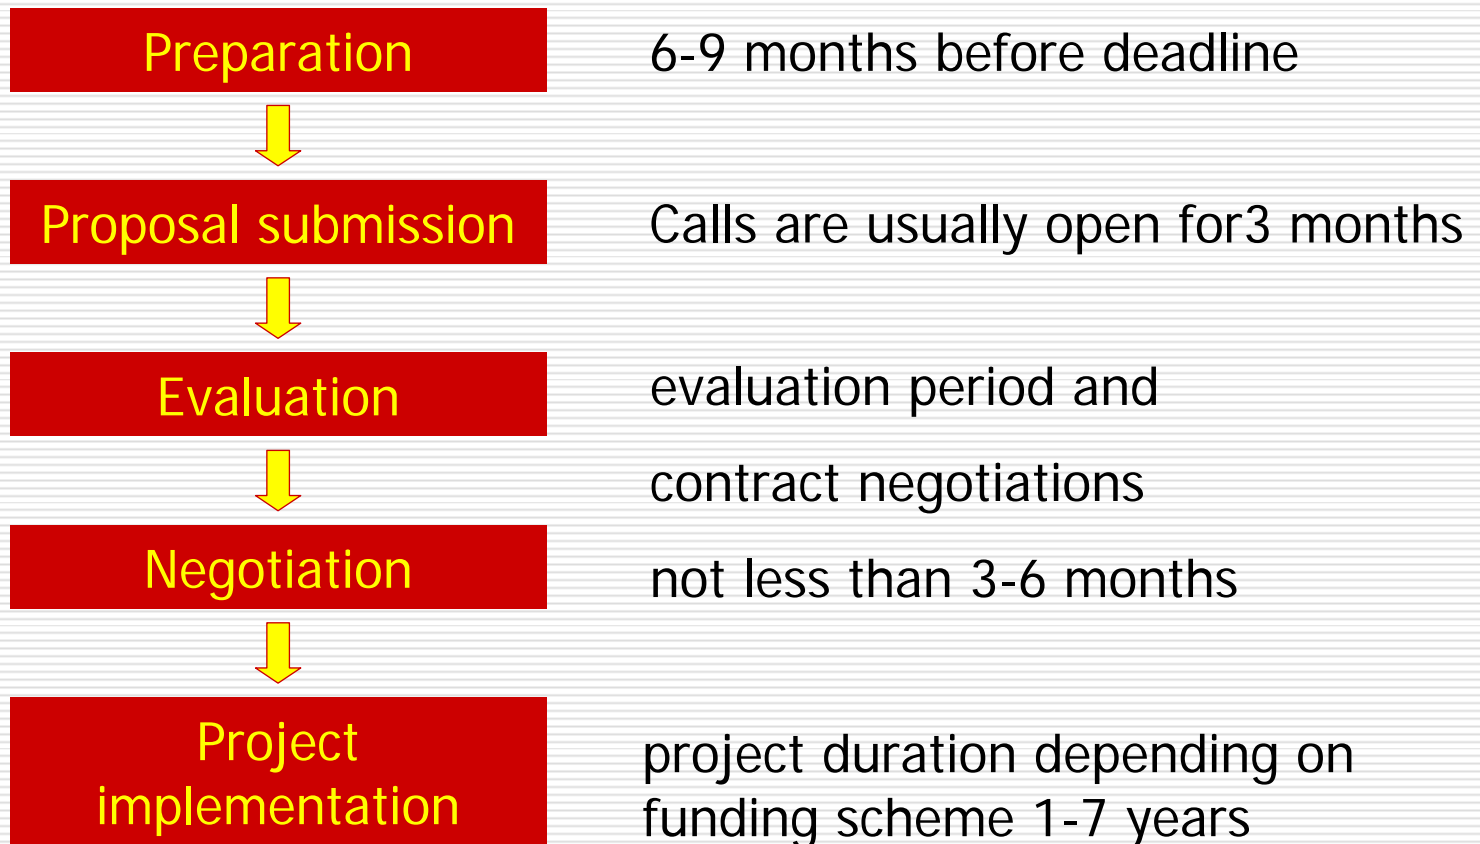

Earth observation and assessment tools for sustainable development

- Earth and ocean observation systems and monitoring methods for the environment and sustainable development
- Forecasting methods and assessment tools for sustainable development, taking into account differing scales of observation

How do you Start ?

1. Identifying/Screening / **idea or vision.**
 2. **rules** for FP7 research.
 3. **EU partners** or participants from abroad.
 4. **Submit** your application to the European Commission.
 5. **Evaluation.**
 6. The Commission will notify you of the **evaluation results.**
- If they are positive, contract negotiations will begin.
7. Contract signature and **start of the project.**

Stages of a EU Project

Funding Scheme

FP7 Financial Support include:

- Research
- Demonstration
- Networking
- Exploitation
- Dissemination
- Training

Upload Proposal File

For the proposal content (Part B) you must use exclusively PDF ("Portable Document Format", compatible with Adobe Acrobat Reader version 5 or higher, with embedded fonts). It is recommended not to upload very big files. To keep sizes down avoid colour and unnecessary high resolution pictures and graphs. The average size of a research proposal is 2MB (less for mobility actions). You should aim to restrict your proposal to under 3MB, and under no circumstances try to upload a file larger than 10MB

[Download Part B / other Templates \(zip file\)](#)

In FP7, there are different methods for calculating indirect costs. The various options are explained in the guidance notes
**. Please be aware that not all options are available to all types of organisations.

The method of determining indirect costs is set in the Proposal setup page.
If you would like to modify this information, you have to do it from the proposal set-up page.

Capacity – open calls

ERA-Wide 2010

ERA-Wide INCO Call

- **Objective:** reinforce the cooperation capacities of research centers located in the ENP countries.

- **Targeted countries:** Morocco, Algeria, Tunisia, Libya, **Egypt**, Jordan, Palestinian administered Areas, Lebanon, Syria, Moldova, Georgia, Ukraine, Belarus, Armenia, Azerbaijan

- **Participant:** research centres of proven high level S&T capacities, research centre is defined here as an existing working unit, either independent or functioning within a locally established research organisation of one of the countries concerned,

ERA-Wide INCO Call

Proposed activities

- **Networking, identifying partners** and setting up joint experiments;
- Developing **training modules, facilitate the participation in FP7 of the 3rd centers**
- **Developing the research centers' strategy** and to improve their responses to the socio-economic needs of their countries and of the region.

Expected impact The outcomes of the Activity should be:

- Contribution to **RTD capacity building** in the target country,
- Enhanced participation of the country in the 7th Framework Programme,**
- Networking** with other research centres in Member States or Associated Countries (**mobilizing** the human and material resources existing in a given field, **disseminating scientific information** as well as the **results** of research, facilitating communication between the centers having similar scientific interest),
- Increased job opportunities in the country for young scientists** (measures to avoid 'brain drain' phenomena: better career opportunities, better work conditions, access to research infrastructures).

Joining a project- Competitive Calls (Calls by projects)

The EU's Sixth Framework Programme for research and development (FP6) includes new instruments for research funding: Integrated Projects (IPs) and Networks of Excellence (NoEs). During their initial negotiation with the Commission, IPs or NoEs may reserve a portion of the project budget for specific tasks to be carried out by a new contractor or contractors, who will join the consortium at a later date. New partners will be selected from proposals submitted in response to a competitive call.

For organisations interested in joining ongoing FP6 projects, the competitive call announcement will be published on CORDIS, with a link to the website of the project. The project consortium will publish all necessary documentation and background information on their website.

N.B. In order to respond to competitive calls issued by projects, the EPSS tool can also be used.

Open Competitive calls

Project title: AntiMal and MIM/TDR Institutional Capacity Building Grants for Antimalarial Drug Discovery Research in Sub-Saharan Africa

AntiMal is an EU-funded project devoted to the development of new drugs for the treatment of malaria (www.antimal.eu). The project comprises leading groups of malaria researchers from a consortium of 34 institutions from 10 European and 3 African countries (Kenya, Gabon and South Africa). It is a special programme aimed at fast-tracking antimalarial drug discovery and development. AntiMal has received earmarked funding from the EU to strengthen malaria drug research in malaria-endemic countries in Africa. AntiMal is collaborating with the Multilateral Initiative on Malaria (MIM) and the WHO Tropical Disease Research programme (TDR) to identify and select additional African partners for integration into the project. The Multilateral Initiative on Malaria (MIM) (www.mimalaria.org) is an international alliance of organizations facilitating establishment of strong malaria research capability in Africa. The MIM is coordinated by a secretariat currently based at The African Malaria Network Trust (AMANET), Dar es Salaam. The overarching goal of MIM is to strengthen and sustain, through collaborative research and training, the capability of malaria endemic countries in Africa to carry out research required to develop and improve tools for malaria control and to strengthen the research-control interface. TDR (www.who.int/tdr/) aims to foster a global effective research effort on infectious diseases of poverty, in which disease endemic countries play a pivotal role. Activities of MIM coordinated by TDR (MIM/TDR) represent a collaborative funding strategy to promote capacity building activities in the context of MIM

This call is addressed to African scientists who will contribute to strengthening the research capacities and infrastructure of the respective
